The remarks received on 12/16/2004 have been entered.

The rejection under 35 U.S.C. 103(a) of the Office Action mailed on 9/24/2004, has been withdrawn due to applicant's comments that "neither reference, either alone or in combination, teaches or suggests that combining the specific taxane derivative of the present invention with doxorubicin would result in a cancer treatment having a cardio-toxicity profile that is superior to known combinations."

Claims 1-14 are currently pending in this application.

Claims 1-14 are allowed.

2. The following is an examiner's statement of reasons for allowance: Claims 1-14 are drawn to a method for the treatment of cancer by the administration of 4-desacetyl-4-methylcarbonate taxol and doxorubicin to a patient in need thereof sequentially, simultaneously, in alternate order, wherein the dosage of doxorubicin is between 40-380 mg, the taxol derivative is between 50-300 mg, with variable administration intervals and modes of administration, is not taught or fairly suggested by the prior art of the record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703)308-1235.
